Meeting notes — Rooms With a View

Date: Tuesday 30 June 2026, 10:00–11:30am **Where:** Zoom
Present: Lena, Tomás, Hana; Miriam joined 11:10–11:30
Notes: Lena (typed up from my notebook, sorry if terse)

---

1. Hana's June memo

- First stage looks great, internships significant, earnings $p = 0.07$. Everyone happy-ish.
- Hana: still no block file from IR. She has chased them twice.
- Tomás asked whether the first stage is "just proximity", since 62% of ties are same floor or same area. Hana: fair question, but the Year-3 effect is still there. Tomás: Year 3 could also be proximity (people stay in the same area?). Not resolved.
- Tomás: does the swipe file tell us *which* building a co-swipe happened in (dining vs. library vs. rec)? Hana: not sure, the IR file only has pairwise counts.

2. Decisions

- **Tie threshold: change from $\geq$10 days to $\geq$5 days** (more ties per student, fewer students dropped). Hana says the first stage is basically unchanged in a quick check.
- Definitions: brief back-and-forth. **Agreed to go with what is in Hana's memo for the brown bag** so we don't have to rerun everything before 15 July.
- Keep all 12 outcomes in the paper ("report everything").
- Earnings go on the brown-bag slides as "suggestive".
- Heterogeneity (first-gen, race, home-county EC): Hana will run it for the brown bag if there's time.

3. Miriam (last 20 min)

- Block FE are "non-negotiable" before anything is public. She was surprised we don't have the file yet.
- Worried about 12 outcomes and multiple testing. Suggested we decide primary vs. secondary outcomes *now*, before we see more results.
- Will send written comments on the memo + intro later this week.

Action items

#	Item	Owner	Due
1	Chase IR for the block file; rerun main tables with block FE as soon as it arrives	Hana	ASAP
2	Write a one-page list of primary vs. secondary outcomes (pre-specification)	Lena	10 July
3	Contact Residential Life / IR: dining-commons rules; can co-swipes be split by building type?	Tomás	10 July
4	Lee bounds for the earnings sample (consent is post-treatment)	Hana	13 July
5	Brown-bag slides	Lena	13 July
6	Heterogeneity tables for brown bag (if time)	Hana	13 July
7	IRB question on friend-nomination linkage (carried over from 12 May)	Tomás	10 July
8	Everyone: reply to Miriam's written comments within a week of receiving them	All	—

Next meeting: after the brown bag.
